How to charge speaker

Please plug the mic head of charging cable into speaker DC 5V jack and connect another USB head with any 5V charger, power bank or even your computer to charge speaker. Package does not come with charger but a charging cable. Most of chargers in our daily life are 5V.
In charging: red indicator flashes;
Fully charged: red indicator becomes constantly light;

Trouble shooting:

1. Turn on the power switch, but the amplifier has no sound.

- A. The LCD is not light: It is slow battery and please charge the amplifier.
- B. The LCD is light: please check the wired microphone.

2. The voice amplifier has distinct howling.

- A. Wear the microphone correctly: put the microphone in front of the mouth, the distance between microphone and amplifier should keep in 60–70CM;
- B. In a small room, please turn down the volume properly to avoid howling.
- C. Do not point the microphone toward the speaker.

3. Voice amplifier can not turn on while charging;

- A: Unit itself can not turn on while charging, so please unplug then switch on again;

Caution:

1. Aim at the headset MIC capsule when speaking and keep the distance between voice amplifier and MIC longer than 60cm avoid howling.
2. Do not insert or plug the connector frequently to avoid the looseness of socket or the bad connect.
3. Recharge timely when battery power is low.
4. The amplifier should be kept in dry and ventilated area, rain, water, thump should be avoided.

5. Original accessories are suggested if they need to be replaced.
6. Non-professional technician is not allowed to dismantle or repair the product; Please contact the local agent if there is any question or service requirement.

Features:

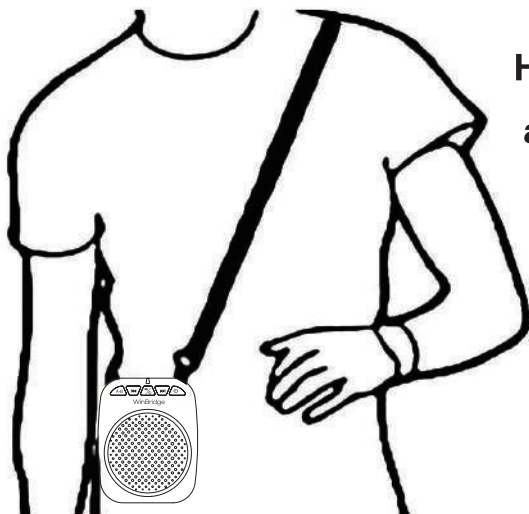

1. WinBridge WB001 is lightweight, compact and portable;
2. Excellent for anyone in meetings or seminars, or guiding a tour.
3. It is a much better device – rounded edges, smoother design, charge at your computer, more features.
4. Operation is straight forward, even if you could without needing the manual. Just plug and play;
5. Could work well for elderly who cannot project their voice to keep them socially involved
